1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

8. A stabilized power converter comprising:
- (a) power supply means for supplying energy, and
 - (b) inductive means for storing a stored energy, coupled to said power supply means, and
 - (c) on-timing means, for establishing an on time interval, and capable of being disabled by a discharge potential across said inductive means during an off time interval, and
 - (d) load means coupled to said inductive means for receiving said stored energy during said off time interval, and
 - (e) power switching means responsive to said on-timing means, disposed to connect said inductive means in series with said power supply means and storing said stored energy in said inductive means during said on time interval,
- whereby said power switching means stores energy from said power supply means in said inductive means during said on time interval, and said stored energy is discharged from said inductive means during said off time interval into said load means, and the duration of said off time interval is terminated at such time as said stored energy in said inductive means is substantially fully exhausted.
20. Claim 17, where said off-time terminates at substantially the same time as said stored energy in said inductive means is substantially exhausted.
